Question:

Is it possible for a Crew to have more than four members but only four of the Crew to sail on board at any one time?

Answer:

Yes.

NoR 5.1 states that entries are invited from clubs and that the number of crew is four. It is the club that has the entry and not the four sailors who happen to be on board at any one moment. The BKLA has always accepted crew changes where sailors can only make one day for example.

The only restriction to this is that the team on board during a race must comply with NoR 5.3 and all sailors must register before going afloat. In the event a team needs to amend their registered crew after registration this must be done in writing as will be detailed in the SI's.
